

SCOTT D.
RIGHTHAND

LAW OFFICE OF SCOTT RIGHTHAND, P.C.

The Law Office of Scott Righthand, P.C. is proud to announce its peers have named Scott Righthand to the *Northern California Super Lawyers*® list.

DEDICATED TO CLIENT SERVICE

Righthand, a 30-year resident of the Bay Area, litigates cases throughout California and the nation. His practice includes injuries from accidents of all types, including auto, bicycle, motorcycle, plane, train, medical malpractice, products failure, workplace harassment/wrongful termination, insurance bad faith and more. The cases he takes on vary from birth injury to wrongful death and everything in between.

"I treat every client as if he or she were a family member," says Righthand. "I hate to see people feeling helpless at the hands of health-care providers, insurance companies or employers, and enjoy turning the tables for my clients. They need and deserve that."

QUALITY REPRESENTATION ON A CONTINGENCY BASIS

Righthand is proud to offer high-quality representation on a contingency basis.

"The contingent fee is the great equalizer," he explains. "Without it, most of my clients would have no voice whatsoever since they could never afford to pay up front for representation."

**"MY CLIENTS HAVE
BEEN SERIOUSLY
INJURED AND IT'S
MY JOB TO MAKE
IT RIGHT."**

He says it's important to handle each case with a personal touch. "Cases in my office are worked on by me from start to finish," Righthand says. This includes one-on-one counseling, and open lines of lawyer-client communication. "People that come to me are badly injured. They are full of fear and trepidation about their future and the legal process. It's my job to create a partnership with each client, informing and educating them so that they lose their fears and effectively participate in their cases. Strong client relationships are the

backbone of any case and many of my clients remain friends for life."

REPUTATION FOR EXCELLENCE

Righthand's one-on-one approach generates excellent word-of-mouth endorsement from both clients and referring attorneys. "Referring lawyers also have become friends over the years as we partner to achieve success for their referred clients. They know their clients will be well taken care of."

Looking back over a quarter century of accomplishments, Righthand says he's proud of the many millions of dollars in judgments and settlements he has garnered for his clients along with his ability to positively impact the lives of those he represents. "At the end of the day, if I can improve a life or ease the economic impact of an injury for a client, I have done my job well," he says. "I do what it takes to make it right."
